

Bath Bomb

#26-142

PRODUCT PROPERTIES

Benefits

- Cleansing
- Luxurious
- Ultra-mild
- >99% natural origin

Manufacturing procedure

Mix dry ingredients (phase B) in pestle and mortar into a fine homogenous powder.

Add the wet ingredients slowly whilst mixing vigorously with the pestle to ensure even distribution and mixing of the wet ingredients. Too much wet ingredient in one location will cause reaction initiation and expansive foaming.

Once combined, the mixture should clump together like wet sand when handled. Press into the molds tightly to form the shape them remove, leaving to dry. Alternatively leave to dry in the pestle and mortar to obtain a bath bomb powder.

Phase	Ingredient	INCI / Name	Function	%WW
A	HoliSurf HF	Glycolipids	Foaming / cleansing	2.40
	CAPB 30	Cocamidopropyl betaine	Foaming / cleansing	1.00
	Fragrance/essential oils	-	Fragrance	0.20
	Sodium bicarbonate	Sodium bicarbonate	Reactive / fizzing	56.60
B	Citric acid	Citric acid	Reactive / fizzing	30.80
	Epsom salts	Magnesium sulphate	Active	5.00
	Mica powder	Mica	Natural colourant	q.s.
	Tapioca flour	Maniot esculenta	Filler / moisture absorbent	4.00

Good for the planet,
but is it good for you?
We welcome your feedback.
