

Title: Supply Chain Manager

Reporting to: Managing Director

Package: To be negotiated

Holiferm invites applications from inspired, innovative and outstanding individuals for a full-time essential role.

Holiferm is facilitating the transition of the \$36 billion surfactant market away from harmful, oil based chemicals to biobased alternatives.

Holiferm recently completed the build of its pilot facility, launching tonne scale production of sophorolipids and is working with multiple industrial partners to take the product to market. Before this position will start, Holiferm will have completed the fundraising for our first 1100 tonne a year manufacturing commercial sophorolipid plant. Holiferm is expanding its focus beyond sophorolipids and developing processes to produce additional biosurfactants in collaboration with external market facing partners. This role will be key in enabling Holiferm to transition to a successful industrial producer at commercial scale for first sophorolipids then other biosurfactants.

We offer a competitive flexible pay package and benefits to attract incredible team members to join the Holiferm family, as we understand people have different circumstances.

We are looking for people who believe in making a difference in the chemical industry, who believe in change and want to make a meaningful impact for chemical sector and the environment.

Supply Chain Manager

Responsibilities

- Create the company's supply chain strategy
- Set up procurement systems suitable for ISO9001 and EFFCI practices
- Analyse data from shipping and delivering processes to find bottlenecks and other issues
